Cloud Office 365

WHAT IS CLOUD OFFICE 365?

A Complete Suite for increasing productivity, security, and compliance while simplifying the management and synchronization of on-premise AD, Microsoft Office 365 Cloud, OpenLDAP, and Azure AD with Directory Synchronization.

Simplifies Office365, OpenLDAP and Azure AD.

Do it all in the fastest, easiest, most efficient, and secure way with Cloud Office 365.

Overview

Increases productivity, security, and compliance while simplifying the management and synchronization of on-premise Active Directory (AD), Microsoft Office 365 Cloud and Azure AD with Directory Synchronization.

Cloud Office 365 is a cloud-based Identity and Access Management (IAM) Solution. It automates user de-provisioning and provisioning, collects auditing data for compliances. It enables migration to the Microsoft cloud in stages via all or a subset of user and groups migration.

Centralized user and group management, reports that give deep insight, Self-Service Password Reset (SSPR) and Multi-Factor Authentication (MFA). Reduces the risk of a major security breach.

Do it all in the fastest, easiest, most efficient, and secure way with Cloud Office 365.

Features

- Email and OneDrive Migration
- Migrate and Archive OneDrive Data in Bulk
- Dramatically Reduces Time for Provisioning and De-provisioning Users
- Automatic Data Migration and Archival of On-premise with One drive
- Ensures License Management is Optimal with Lower License Costs and Risk
- Centralized Management of Office 365 Groups, Users and Passwords
- Reports that give deep insight into Office365 and Azure.AD
- Self-Service Password Reset (SSPR) for End-users with Multi-Factor Authentication (MFA)
- Self-management of Groups and User-Profiles
- Easy to Use Proxy Authentication API's for Authentication

Cloud Office 365

"We realized a rapid ROI. Deployment was fantastic! We did NOT have to add or change anything in our current Infrastructure."

SVP of Operations
International Tech Company

WHAT IS CLOUD OFFICE 365?

A Complete Suite for increasing productivity, security, and compliance while simplifying the management and synchronization of on-premise AD, Microsoft Office 365 Cloud, OpenLDAP, and Azure AD with Directory Synchronization.

Simplifies Office365, OpenLDAP and Azure AD.

Do it all in the fastest, easiest, most efficient, and secure way with Cloud Office 365.

Benefits

- **Real-time Tracking of All Changes** with Defined Notifications
- **Dramatically Reduces Time** for Provision and Deprovision Users
- Automating Onboarding of Users and Access Process with a Few Clicks
- Automatically Creates Updates and Removes User Accounts
- **Streamlines the Tedious Task of Internet User Account Management**
- **Significant Reduction in Help Desk Load and Costs**
- Automating User Account Deactivation of Unused Access Prevents Identity Exposure for Hackers
- **Ensures License Management is Optimal**, Lowering Costs Eliminating Straggling Licenses
- Migration and Archiving Data for **Regulatory Compliance**
- Any On-premise Changes are Automatically Synced
- Office 365 Portal Allows the Performance of Day-to-Day Functions without Requiring User Login
- **Dir-sync Keeps Enterprise Directory** (OpenLDAP, LDAP) **in Sync** with Azure AD

SYSTEM REQUIREMENTS

- Any version of Windows Server in the cloud of enterprise.
- Microsoft IIS, SQL
- Access to Microsoft Office 365 or Azure AD
